Upwards of fifty books have been added to the library in the past year, including two books presented to us by Mr. F. Schuyler Matthews. The books have been arranged

alphabetically and the worthless ones weeded out.

The library room has been painted and the ceiling whitened, the window has been washed and a new curtain added, making the room as attractive as possible.

The trustees consider that they were fortunate in securing Mrs. Ewins and Miss Louise Ewins to act as librarians, knowing all matters pertaining to the library would be well attended to.

Respectfully submitted,

REPORT OF SCHOOL BOARD.

We have had three terms of school in each of the nine districts during the last year. Several of the schools are still in session and will continue a few weeks longer, hence the table of statistics is not complete.

The attendance of children between the ages of eight and fourteen has been very good but something should be done to regulate the absence of pupils over fourteen. We have had too many non-attendants among scholars of that age.

It will be remembered that the town voted, at the last school meeting, to adopt a graded course of study. During the past year the pupils in all of our schools have been placed in grades and the teachers requested to take for their guide the graded course of study known as Schedule No. 1, found in the manual that has been recommended by our State Superintendent. It is a course of study adapted to the ungraded, and the graded schools in which only a minimum of work can be done. The results, in nearly all of the schools, have been, thus far, satisfactory.

New books, for supplementary work in English have been furnished and each of these books have not merely been read but made to serve a purpose through the talks which the teacher has encouraged the children to have about them and the lessons drawn from them. A new arithmetic has been provided for grade work.

We believe this method of instruction should be continued because it will prepare our scholars for the more difficult tasks that will be given them if they enter the higher schools, and will be a great help to those who do not.

We have many bright and interesting pupils, and let us give them the best education possible.

Give the schools expert supervision, experienced, prac-

tical teachers, interested parents, and more of the old-fashioned government and thoroughness in teaching, and the results will be the very best schools, in the near future.

We wish to express our thanks for the kind treatment which we have received from everyone.

ANNIE S. LITTLE,

Chairman School Board.

February 15, 1908.
